WEBDESIGN MINI PROJECT

Course: IT 1201 Internet Technology and Webpage Authoring

July 13th, 2026

Make a topic of your choice for any company, organization, or an enterprise. Using all the tags, elements, attributes, and CSS, design and create a professional website for the chosen topic. Provide all the useful information that will lead to the successful establishment of the website.

NB: Be certain to be CREATIVE in website design.

Timeline: Wednesday July 13, 2026

NB: This is an individual project.
